The color red, in that system, signifies "stop," even though "there is no natural bond between red and stop" (105). Meaning is derived entirely through difference, "a system of opposites and contrasts," e.g., referring back to the traffic lights' example, red's meaning depends on the fact that it is not green and not amber (105).

Piaget's theory of cognitive development is a comprehensive theory about the nature and development of human intelligence. It was originated by the Swiss developmental psychologist Jean Piaget (1896–1980). The theory deals with the nature of knowledge itself and how humans gradually come to acquire, construct, and use it. Piaget's theory is mainly known as a developmental stage theory.
