DNA provides another piece of evidence which makes the theory of evolution irrefutable, meaning that we have so much evidence to support the theory that it has to be correct. Finally, the real breakthrough came when we observed evolution in action. Normally, it takes millions of years for organisms to evolve, but it only takes bacteria a short time.

Discuss the Evidence for Evolution Worksheet - EdPlace

16) biochemistry is considered the best evidence for evolution. An important protein in animals called cytochrome c is used during cellular respiration. There are fewer differences in the amino acid sequence of this protein between more closely related species.
