This is a great book covering almost every aspect of animation history. The author does a great job of introducing a lot of different artists, events and facts about the history of animation. Well researched and well organized. There certainly is more room for detail and depth with a lot of what she covers.

The history of animation started long before the development of cinematography. Humans have probably attempted to depict motion as far back as the paleolithic period. Much later, shadow play and the magic lantern (since circa 1659) offered popular shows with projected images on a screen, moving as the
