I'm very highly interested in learning how ...

### Hello there, Welcome. - About - IGCSE ART WEBSITE

This is one of the most important parts of the graph-drawing process. Your 'x' axis must show your independent variable (the thing being changed for each measurement) while the 'y' axis is for the dependent variable (the thing being measured each time). Each of your axes should be clearly labelled to show what they're measuring, with the units of measurement noted alongside them.
