In recent years, the media has sounded the alarm about mass job loss to automation and robotics—some studies predict that up to 50 percent of current jobs or tasks could be automated in coming decades. While this topic has received significant attention, much of the press focuses on potential problems without proposing realistic solutions or considering new opportunities.

3 Practical Solutions to Offset Automation's Impact on Work

Syring counsels clients on a variety of labor and employment issues, drafts and negotiates executive compensation agreements, and works with employers on the impact of social media.
