About KS3 SATs Papers. KS3 SATs papers were introduced in 2003. KS3 test papers challenged children in their Year 9 Maths, Science and English. Following a long battle with teachers, formal tests were dropped after 2009. KS3 Maths papers (together with English and Science) do still exist but they are written and marked within schools.

Science education in England is generally regulated at all levels for assessments that are England's, from 'primary' to 'tertiary' (). Below university level, science education is the responsibility of three bodies: the Department for Education, Ofqual and the QAA, but at university level, science education is regulated by various professional bodies, and the Bologna Process via the QAA.

This KS3 Science quiz asks questions about cells. Cells are part of every living thing. The simplest organisms like bacteria and amoeba have bodies that are a single cell. More complex animals like humans have trillions of cells. The larger the organism, the more cells it has. There are many different types of cell.
