Return To Life By Jim

A first-person account of Jim B. Tucker's experiences with a number of extraordinary children with memories of past lives, New York Times bestseller Return to Life expands on the international work started by his University of Virginia colleague Ian Stevenson. Tucker's work, lauded by the likes of parapsychologist Carol Bowman and Deepak Chopra, and described by some as quantum physics, focuses mostly on American cases, presenting each family's story and describing his scientific investigation.

“With Return to Life, Dr. Jim B. Tucker has driven a very large nail in the coffin of materialism. This is an important contribution to the growing body of evidence that consciousness survives the death of the brain and body. The fear of death and annihilation has caused more suffering in human history than all the physical diseases combined.
